

SICKNESS/ILLNESS POLICY

We ask that you keep your child at home with any of the following symptoms and/or illnesses:

- Fever greater than 100°
- Yellowish/green runny nose
- Questionable rashes
- Coughing-continual, uncontrollable coughing
- Diarrhea
- Vomiting
- Impetigo/staph infection
- Active chicken pox
- Measles
- Mumps
- Conjunctivitis (pink eye)

If your child is being treated with antibiotics, he/she should be on the drug for at least 24 hours before coming to school.

If your child has a continually clear-runny nose or rash due to non-contagious allergies, please let us know. We realize that some symptoms hang on long after the child is no longer contagious. Remember, we want all of our children to remain healthy and happy.

Any child running fever must be free of fever for 24 hours before returning to school.

Any child having a contagious disease must remain at home until the contagious period is ended and upon presentation of a doctor's certificate verifying that the child may return to school.
