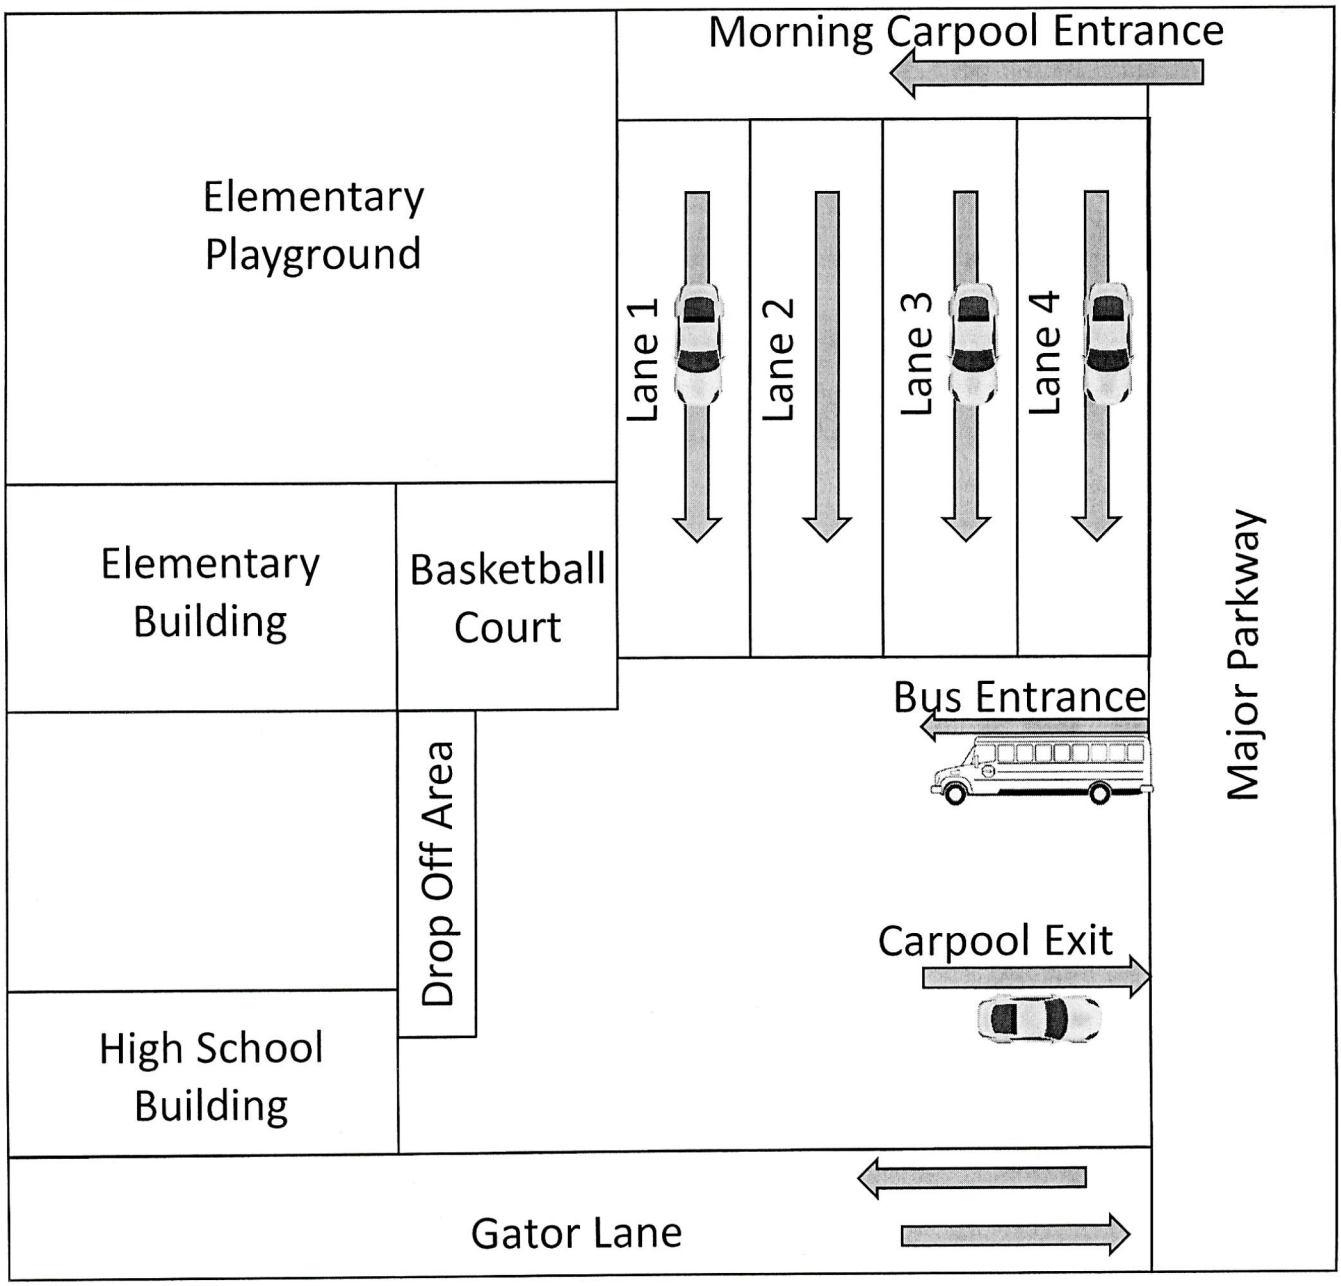
Morning Carpool Instructions

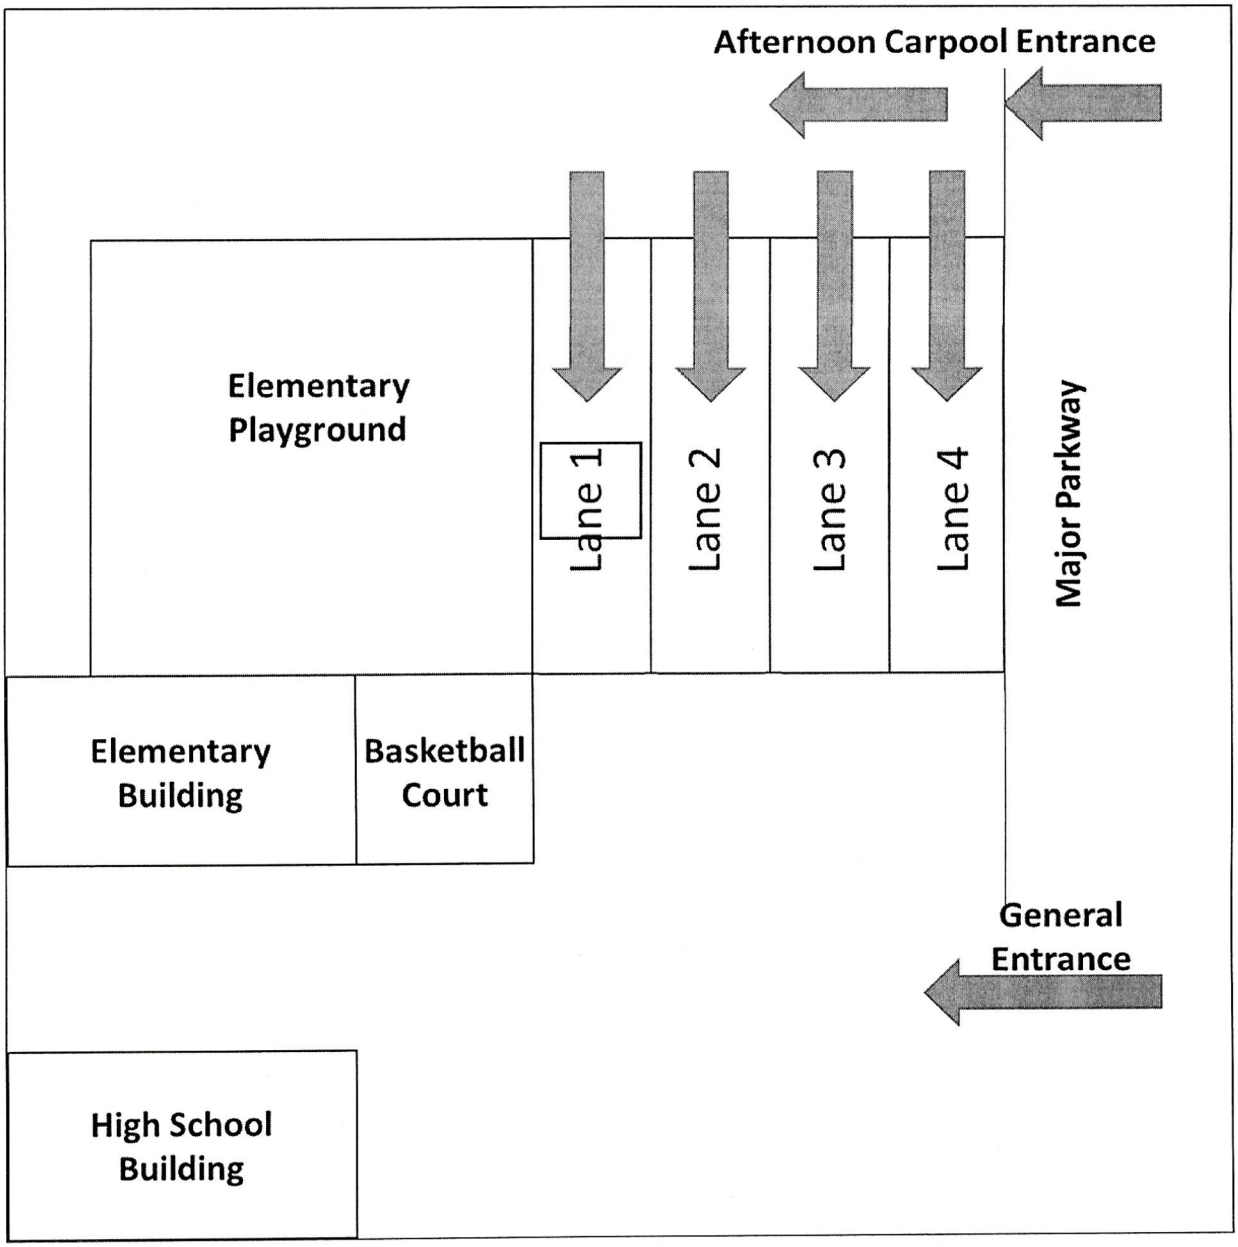
In an effort to alleviate morning traffic on Major Parkway, we are asking all parents to enter the school grounds at the entrance near the Pangburn building.

* Parents with <u>older students</u> will enter lanes 1 and 2 of the carpool lines and go straight through to the covered drop off area. ***<u>Lane 1 & Lane 2 will merge into each other as they are entering the drop off area.</u>***

* Parents with <u>younger children</u> will use lanes 3 and 4 to unstrap their child from car seats, put their book sacks on their back, say their morning goodbyes, and then proceed to the drop off area.

Carpool must yield to buses entering the school grounds at the normal entrance gate.



Afternoon Carpool Instructions for All Grades


There will be 4 lanes of cars on the gravel area. Start by filling Lane 1 to the cone, then move to Lane 2, and repeat until all lanes are filled. If a vehicle arrives once carpool has begun, they should get in the lane closets to the road. Cars will enter the school grounds at the entrance at the far end of the elementary playground, closest to the Pangburn building. If a carpool student has an older sibling, the older child will come out with the younger sibling and stand together. If a parent is picking up other children, they will all stand with the youngest student. We will be loading our Lane 1 immediately after the buses pull out.
